COMMAND LINE INTERFACE SMS

MANUAL FOR SYSTEM INTEGRATOR & SOFTWARE DEVELOPER

INTRODUCTION

Programme: Command Line Interface SMS (“CLISMS”)

API TYPE: COMMAND LINE INTERFACE (“CLI”) for Windows only

File Name: CLISMS.exe

Version: 5.0

Requirements:

1. System integrator, and software developer (“SI/SD”) must possess knowledge in using command line interface, or shell command in Windows command prompt environment.
2. Any software applications that can call external programme, or shell out to CLISMS.exe such as:
 - 2.1 Network monitoring programme – OpManager, IPServerCheck, PRTG, etc.
 - 2.2 Anti-virus programme
 - 2.3 Firewall programme
 - 2.4 Windows Services
3. The operating system must be Windows OS (98, ME, 2000, XP, and 2003)

Command Line Interface SMS (“CLISMS”) is part of the **SMS Gateway Development Kit (“SMS GDK”)**. System integrator, and software developer can choose any development kit in the **SMS GDK** to build their own SMS Gateway.

NEW FEATURES IN VERSION 5

1. Supports USSD where SI/SD can check credit balance, and reload credit.

INSTALLATION

1. Run the “setup.exe”
2. The “CLISMS.exe” will be installed in “C:\”

COMMAND LINE INTERFACE SMS

MANUAL FOR SYSTEM INTEGRATOR & SOFTWARE DEVELOPER

COMMANDS

Commands can be executed through:

- Windows command prompt
- a software application that allows you to call CLISMS.EXE, and passing the parameters.
- Java programme

1. To send out SMS

```
clisms.exe /port=2 /to=0162211600 /msg=Alert
```

- "port" is the COM port where the GSM modem is connected
- "to" is the mobile number of the recipient (one number only)
- "msg" is the SMS to be sent out (160 character limit, and in text format only)

2. To check credit balance of HOTLINK

```
clisms.exe /port=2 /ussd=*122#
```

3. To check credit balance of DIGI

```
clisms.exe /port=2 /ussd=*126#
```

4. To check credit balance of XPAX

```
clisms.exe /port=2 /ussd=*124#
```

5. To top-up credit of HOTLINK

```
clisms.exe /port=2 /ussd=*111*14 digit PIN code#
```

6. To top-up credit of DIGI

```
clisms.exe /port=2 /ussd=*123*reload coupon serial number#
```

7. To top-up credit of XPAX

```
clisms.exe /port=2 /ussd=*122*16 digit reload code#
```

Responses for all the above commands will be logged in a text file called "Log.txt". It is located at the same directory of "CLISMS.exe"

SUITABLE SITUATIONS

CLISMS is suitable for use in the following situations:-

1. when SI/SD wants to quickly enable their own software applications, or system to send out SMS alerts;
2. to send SMS alert to administrator when server is down, virus is detected, or network intrusion (the network monitoring programme detects the server is down, and call CLISMS.exe);
3. to send SMS alert when Windows service fails to run;
4. to send SMS alert when UPS is running on battery, that is no power supply.

BENEFITS

The benefits to system integrator, and software developer in using **CLISMS** are:

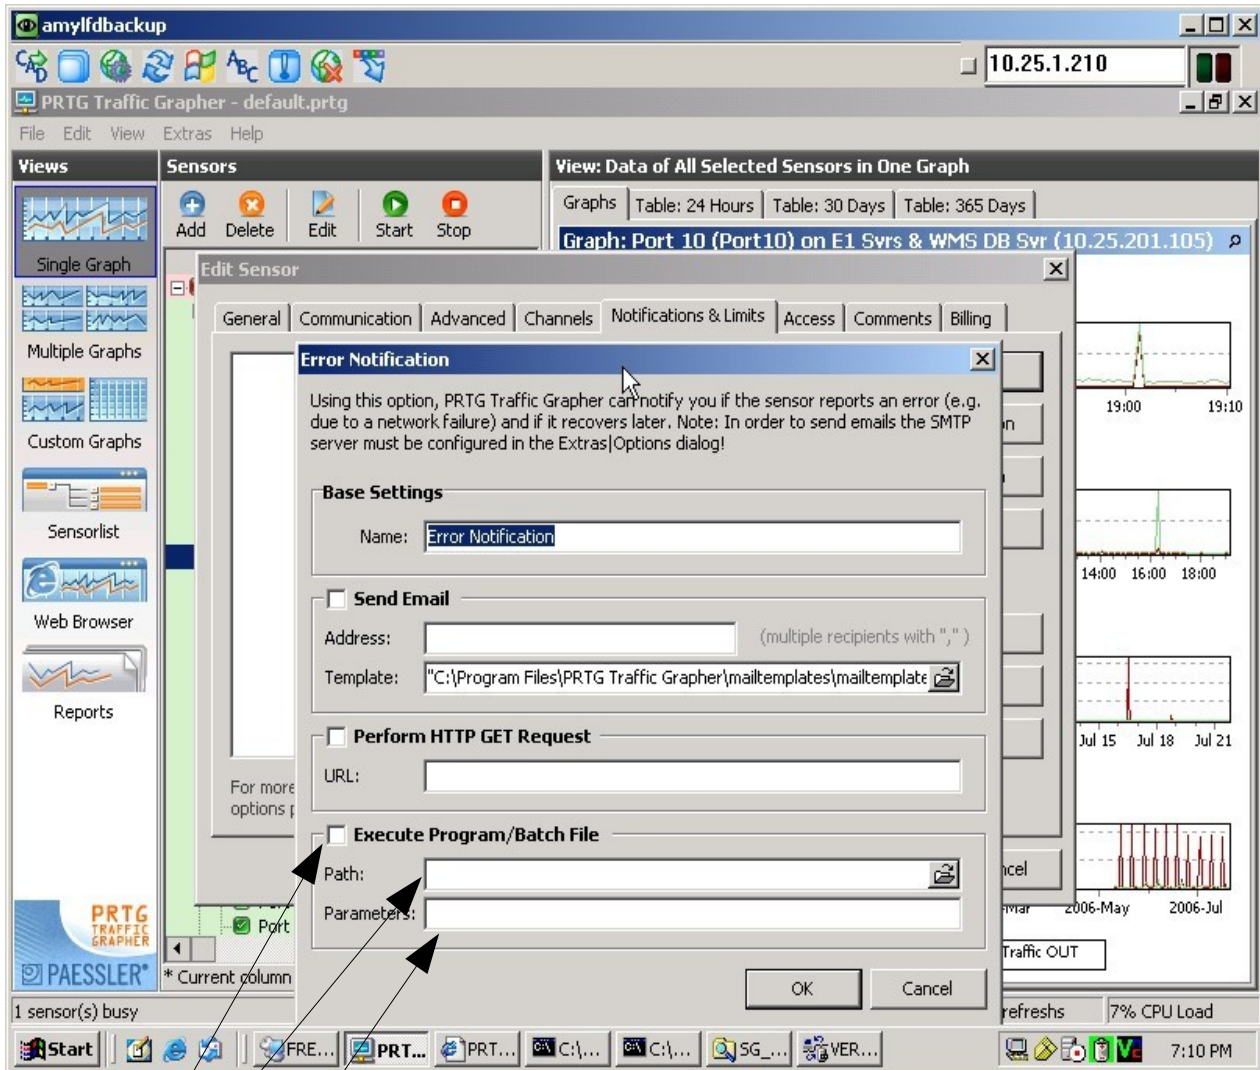

1. rapid development of a SMS Alert programme;
2. can decide who should receive outgoing message, when to send, what to send;
3. integrate *SMS Alert function* with existing software applications that support calling external programme;
4. **open source** (VB6), SI/SD can modified **CLISMS** to incorporate business rules, and process flow.

CONFIGURING PRTG TRAFFIC GRAPHER TO CALL CLISMS.EXE

PRTG Traffic Grapher (<http://www.paessler.com/prtg>)

This section will explain how to use CLISMS with a network monitoring application such as PRTG. When PRTG detects an event, it will send out SMS via CLISMS.

- Check the "Execute Program/Batch File"
- In "Path:", enter "**C:\CLISMS.exe**", or the location of the CLISMS.exe
- In "Parameters:", enter "**/port=2 /to=0162211600 /msg=Alert**"

CONFIGURING WINDOWS - MYSQL SERVICE TO CALL CLISMS.EXE

- At "First failure:", select "Run a Program".
- At "Program:", enter "C:\CLISMS.exe"
- At "Command line parameters", enter
"/port=1 /to=0122883030 /msg=Alert"

When MySQL service fails, a SMS alert will be send out to 0122883030 with message "Alert".

SMS ALERT WHEN UPS RUNNING ON BATTERY

This section will guide you how to configure the UPS to send SMS alert when there is no power supply and UPS is running on battery.

Each UPS manufacturer provides their own UPS software. In this example, the UPS manufacturer is Power Kinetics , and the UPS model is BlackoutBusterTX (<http://www.powerkinetics.com.my/blackoutseries.htm>), refer to illustration 1.

The UPS software is “Powersoft TX version 1.12”, refer to illustration 2. The UPS software can be downloaded from <http://jst.cc/download.html>

The end result is like this – when there is no power supply, the UPS will run on battery and will shut down the PC in 5 minutes time. Then 4 minutes before shutting down PC, UPS will call CLISMS to send SMS alert to the hand phone number 0163311600 with message “UPS running on battery”.

Illustration 1: BlackoutBuster TX

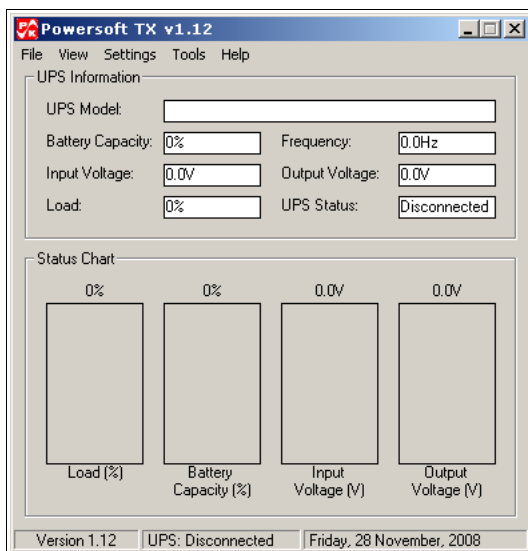

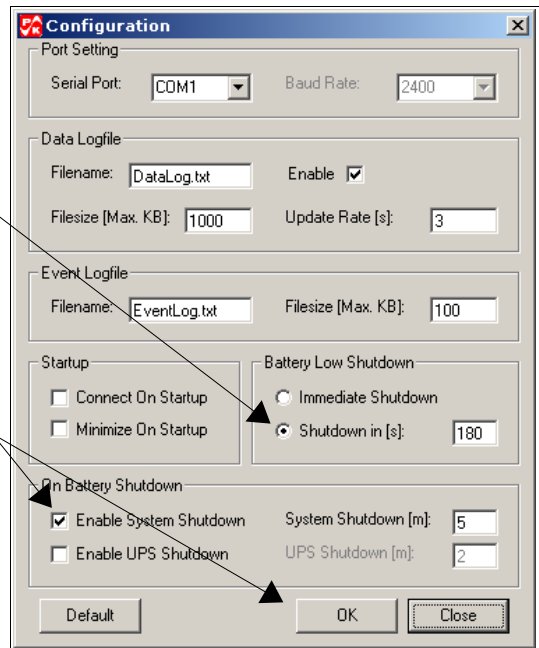

Illustration 2: Powersoft TX version 1.12

COMMAND LINE INTERFACE SMS MANUAL FOR SYSTEM INTEGRATOR & SOFTWARE DEVELOPER

First, configure Powersoft TX to shut down PC when running on battery:-

1. To configure Powersoft TX with CLISMS, click on “Settings > Configuration”
2. At “Battery Low Shutdown”, select “Shutdown in (s)”, enter “180”. This means when there is no power and UPS running on battery until low lever battery, the UPS will shut down the PC in 3 minutes
3. At “Battery Shutdown”, check “Enable System Shutdown”, and enter “5”. This means 5 minutes before battery runs dry, UPS will shut down the PC.
4. Click “OK” to save setting.

COMMAND LINE INTERFACE SMS MANUAL FOR SYSTEM INTEGRATOR & SOFTWARE DEVELOPER

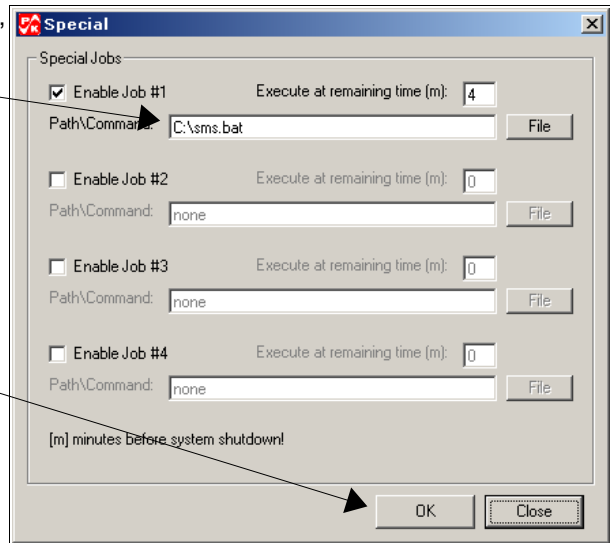

Next, configure the Powersoft TX to call CLISMS:-

1. Then click on "Tools > Special".
2. Check "Enable Job #1", enter "4", then at "Path" select the file "sms.bat".
3. Use text editor (notepad), copy the following and save as "sms.bat":-

```
clisms /port=2 /to=0163311600  
/msg=UPS running on battery!  
echo "sent"
```

4. Click "OK" button to save setting.

The end result is like this: when there is no power supply, the UPS will run on battery and will shut down the PC in 5 minutes time. Then 4 minutes before shutting down PC, UPS will call CLISMS to send SMS alert to the hand phone number 0163311600 with message "UPS running on battery".
